

## IMPORTANT NOTICE

Effective 8-1-2009, the Federal Government is requiring physician practices to request and **copy photo IDs** from patients. This ID can be a valid US driver's license or another government issued ID. We will copy your ID once per year but will request to see it at each visit.

These new "Red Flag Rules" from the Federal Trade Commission are designed to help protect patients from **identity theft**. You may also be asked for personal identifying information over the telephone before discussing private patient information.

Please be patient with us as we adopt our practice to conform to these new rules. If you have any questions, please contact Commonwealth Urology's Security Officer at (859) 277-5766.

Thank you.
